List Prices and Discounts

All prices in this catalog are list prices and are exclusive of any applicable taxes. Contact your Brook Crompton distributor or a Brook Crompton regional office for your applicable discount.

Manufacturing Policy

Every care has been taken to ensure the accuracy of the information contained in this publication; however, due to our policy of continuous development and improvement, the right is reserved to supply products which may differ slightly from those illustrated and described in this publication.

Warranty Policy

Brook Crompton warrants its NEMA and IEC integral horsepower motors to be free from defect in materials and workmanship and to conform to its written specifications for a period of 36 months from date of first use or 42 months from date of manufacture, whichever period shall expire first.

Additionally, Brook Crompton warrants its NEMA 48 & 56 frame / 63-80 frame IEC and single phase motors to be free from defect in materials and workmanship and to conform to its written specifications for a period of 12 months from date of first use or 18 months from date of manufacture, whichever period shall expire first.

Brook Crompton warrants its NEMA IEEE841 motors to be free from defect in materials and workmanship and to conform to its written specifications for a period of 60 months from date of first use or 66 months from date of manufacture, whichever period shall expire first.

Brook Crompton reserves the right to repair or replace, solely at their discretion, any motors that are deemed to have failed during the warranty period stated above.

Service Procedures

1. Contact Brook Crompton immediately.
2. Provide full details: i.e. HP, frame, serial number, and date of purchase.
3. Brook Crompton will establish if service or replacement is required and if a valid warranty exists.

Brook Crompton will cover under warranty the repair or replacement of the defective unit. Brook Crompton will not be liable for any freight charges and/or installation/removal costs associated with the repair/replacement.

W-Series Aluminum 56 Frame

Certifications

W-Series Aluminum Range

The Brook Crompton W-Series 56 frame motor range covers products with outputs from 0.25HP up to 3HP in both foot mount and C-face mount.

They are suitable for use in a diverse range of applications. Many applications often have adverse operating conditions including repeated starting and occasional overloading, the W range is well suited to these situations. A virtual 'go anywhere' motor, this aluminium range has a 1 year warranty on 56 frame motors.

Multi-Mount

By simply changing the position of the feet, the user is able to obtain right, left or top mounted terminal box positions.

The standard endshield can be removed and fitted with a C face for alternative mounting options.

Features

- NEMA MG1-Part 31 inverter duty 5:1 constant torque, 10:1 variable torque
- 1.25 service factor at 60Hz, 1.0 service factor at 50Hz
- Class F insulation with class B temperature rise
- Removable/ repositionable feet for easy conversion to F1, F2, F3 (F0), or round body configuration
- IP55 degree of protection for washdown duty enclosure
- Full contact shaft seals inside both brackets for increased protection against contaminants
- Dual rated 60/50Hz at same HP
- Cast aluminum conduit box with drilled and tapped entry is rotatable in 90 degree increments
- CSA approved for Class I; Division 2; Groups A, B, C & D, Zone 2; Groups IIA & IIB T3 with VFD
- Internal tropicproof
- 1 year warranty

W-Series Aluminum Range

The Brook Crompton W-Series aluminum frame motor range covers products with outputs from 0.75HP up to 30HP in foot mount, C-face mount, and D-flange mount. They are suitable for use in a diverse range of applications. Many applications often have adverse operating conditions including repeated starting and occasional overloading, the W range is well suited to these situations. A virtual 'go anywhere' motor, this aluminium range has a 3 year warranty.

Multi-Mount

By simply changing the position of the feet, the user is able to obtain right, left or top mounted terminal box positions.

The standard endshield can be removed and fitted with either a D flange or C face for alternative mounting options.

Features

- NEMA MG1-Part 31 inverter duty 5:1 constant torque, 10:1 variable torque
- 1.25 service factor at 60Hz, 1.0 service factor at 50Hz
- Class F insulation with class B temperature rise
- Removable/ repositionable feet for easy conversion to F1, F2, F3 (F0), or round body configuration
- IP55 degree of protection for washdown duty enclosure
- Full contact shaft seals inside both brackets for increased protection against contaminants
- Dual rated 60/50Hz at same HP
- Cast aluminum conduit box with drilled and tapped entry is rotatable in 90 degree increments
- CSA approved for Class I; Division 2; Groups A, B, C & D, Zone 2; Groups IIA & IIB T3 with VFD
- Internal tropicproof
- 3 year warranty

W-Series Cast Iron 143T-447T Frame

12

Certifications

W-Series Cast Iron Range

The Brook Crompton W motor range covers products with outputs from 1HP up to 200HP in frame sizes 143T to 447T.

They are suitable for use in a diverse range of applications. Many applications often have adverse operating conditions including repeated starting and occasional overloading, the W range is well suited to these situations. A virtual 'go anywhere' motor, this cast iron range has a full 3-year guarantee.

Multi-Mount

By simply changing the position of the feet, the user is able to obtain right, left or top mounted terminal box positions.

The standard endshield can be removed and fitted with either a D flange or C face for alternative mounting options.

Features

- NEMA MG1-Part 31 inverter duty 5:1 constant torque, 10:1 variable torque
- 1.25 service factor at 60Hz, 1.0 service factor at 50Hz
- Class F insulation with class B temperature rise
- Removable/ repositionable feet for easy conversion to F1, F2, F3 (F0), or round body configuration
- IP55 degree of protection for washdown duty enclosure
- Full contact shaft seals inside both brackets for increased protection against contaminants
- Dual rated 60/50Hz at same HP
- Cast iron conduit box with drilled and tapped entry is rotatable in 90 degree increments
- CSA approved for Class I; Division 2; Groups A, B, C & D, Zone 2; Groups IIA & IIB T3 with VFD
- Internal tropicproof
- 3 year warranty

NEMA IEEE841 Cast Iron 143T-449T Frame

Certifications

NEMA IEEE841 Range

The Brook Crompton IEEE841 motor range covers products with outputs from 1HP up to 300HP in frame sizes 143T to 449T.

They are suitable for use in high intensity applications in such industries as chemical, mining, petroleum, and other severe duty applications. A top quality designed motor, this cast iron range has a full 5-year guarantee.

Features

- NEMA MG1-Part 31 inverter duty 5:1 constant torque, 10:1 variable torque
- 1.15 service factor at 60Hz, 1.0 service factor at 50Hz
- Class F insulation with class B temperature rise
- IP56 degree of protection for washdown duty applications
- Labyrinth style seal on both ends of shaft
- Low vibration level of .08 in/s or less
- Foot flatness of .005 in max
- Extended grease tubes for re-greasing in the field without disassembly of the motor
- Corrosion resistant grade 5 hardware
- Epoxy paint
- Special shaft TIR specification (1/2 of NEMA standard)
- Dual rated 60/50Hz at same HP
- CSA/UL approved for for Class I Div. 2/ Zone 2 Gr. A,B,C,D. Class II Div. 2/ Zone 22 Gr. F & G
- IEEE841 test report supplied with each motor
- 5 year warranty

W-Series Close Coupled Pump Motor 143-365 JM/JP Frame

24 Certifications

W-Series JM/JP Range

The Brook Crompton W motor JM/JP close coupled pump motor range covers products with outputs from 1HP up to 75HP in frame sizes 143JM/JP to 365JM/JP and are designed for direct drive pumps. Many applications often have adverse operating conditions including repeated starting and occasional overloading, the W range is well suited to these situations. A virtual 'go anywhere' motor, this cast iron range has a full 3-year guarantee.

Multi-Mount

By simply changing the position of the feet, the user is able to obtain right, left or top mounted terminal box positions.

Features

- NEMA MG1-Part 31 inverter duty 5:1 constant torque, 10:1 variable torque
- 1.25 service factor at 60Hz, 1.0 service factor at 50Hz
- Class F insulation with class B temperature rise
- Aluminum construction from 1 HP to 30 HP
- Cast iron construction from 40 HP to 75 HP
- Removable/ repositionable feet for easy conversion to F1, F2, F3 (F0), or round body configuration
- IP55 degree of protection for washdown duty enclosure
- Full contact shaft seals inside both brackets for increased protection against contaminants
- Dual rated 60/50Hz at same HP
- Split conduit box is 90 degree rotatable
- CSA approved for Class I; Division 2; Groups A, B, C & D, Zone 2; Groups IIA & IIB T3 with VFD
- Internal tropicproof
- 3 year warranty

W-Series Close Coupled 143JM-365JM Frame

Open Drip Proof Cast Iron 182T-447T Frame

Certifications

29

Open Drip Proof Range

The Brook Crompton open drip proof motor range covers products with outputs from 3HP up to 200HP in frame sizes 182T to 447T.

They are suitable for general applications in clean, dry, indoor environments, such as equipment manufacturing. Perfect for pumps, fans, compressors, and general-purpose industrial use, ODP motors deliver reliable performance, energy efficiency, and long-lasting durability. This robust cast iron range has a full 3-year guarantee.

Features

- NEMA MG1-Part 31 inverter duty
- 1.15 service factor at 60Hz, 1.0 service factor at 50Hz
- Class F insulation with class B temperature rise
- Premium efficient
- Open drip proof enclosure
- Cast iron construction
- IP22 degree of protection
- Dual rated 60/50Hz at same HP
- 3 year warranty

Open Drip Proof Cast Iron 182T-447T Frame

Farm Duty 56-215T Frame & Auger Duty 56Y Frame

34

Certifications

Farm & Auger Duty Range

The Brook Crompton farm duty and auger duty motor range covers products with outputs from 0.33HP up to 10HP in frame sizes 56-215T.

Designed for rugged agricultural environments, Farm Duty Electric Motors provide the durability and performance you need for farm operations. Built to withstand dust, moisture, and demanding workloads, these motors power essential equipment like grain augers, conveyors, fans, and irrigation systems.

With high torque, efficient operation, and long-lasting durability, Farm Duty Motors help you maximize productivity and reduce downtime. Whether you need a motor for continuous or intermittent use, these motors deliver dependable power to keep your farm running smoothly.

Features

- Class F insulation
- Rolled steel construction
- Manual thermal overload
- High starting torque
- TEFC enclosure
- 1 year warranty

Farm Duty Rolled Steel 56-215T Frame

HVAC Blower & Condenser Motors 48Y Frame

36 Certifications

HVAC Blower & Condenser Range

The Brook Crompton HVAC blower & condenser motor range covers products with outputs from 0.25HP up to 0.75HP in frame size 48Y. These motors are suitable for replacement of household AC/furnace motors in a variety of different sizes. The automatic overload protection shuts down the motor automatically if it overheats, preventing costly repairs. The standard 48 frame size ensures compatibility with OEM motors at the same size, making it an easy drop-in replacement.

Features

- Class B insulation
- Rolled steel construction
- Automatic overload
- Extended thru bolts
- 60 degree celcius ambient rating
- Ball bearings
- Reversible rotation
- 5.5" diameter
- Shaft dimensions 5" x 1/2"
- 36" leads
- 1 year warranty

NEMA Explosion Proof 143T - 447T Frame

38 Certifications

NEMA Explosion Proof Range

The Brook Crompton explosion proof motor range covers products with outputs from 1HP up to 150HP in frame sizes 143T to 445T.

Designed to prevent sparks and contain internal explosions, these motors ensure maximum protection in industries such as oil & gas, chemical processing, mining, and manufacturing.

This robust cast iron range has a full 3-year guarantee.

Features

- NEMA MG1 part 31 inverter duty UL & CSA certified 20:1 variable torque
- UL certified 5:1 constant torque
- CSA certified 10:1 constant torque
- 1.15 service factor at 60Hz, 1.0 service factor at 50Hz
- Class F insulation with class B temperature rise
- UL/CSA approved Div I, Class I, Group C & D: 143T - 256T; Div I, Class I, Group D: 284T & above
- UL/CSA approved Div I, Class II Groups E, F & G. T3B temperature code
- Premium efficient
- Cast iron construction
- IP55 degree of protection
- Normally closed thermostats—One per phase
- Dual rated 60/50Hz at same HP
- 3 year warranty

NEMA Explosion Proof 143T - 447T Frame

W-Series NEMA 2-Speed Motors Cast Iron & Aluminum Construction

43

W-Series 2-Speed Motor Range

The Brook Crompton W motor range covers products with outputs from 1HP up to 200HP in frame sizes 143T to 447T.

They are suitable for use in a diverse range of applications. Many applications often have adverse operating conditions including repeated starting and occasional overloading, the W range is well suited to these situations. A virtual 'go anywhere' motor, this cast iron range has a full 3-year guarantee.

Multi-Mount

By simply changing the position of the feet, the user is able to obtain right, left or top mounted terminal box positions.

The standard endshield can be removed and fitted with either a D flange or C face for alternative mounting options.

Features

- Class F insulation with class B temperature rise
- Removable/ repositionable feet for easy conversion to F1, F2, F3 (F0), or round body configuration
- IP55 degree of protection for washdown duty enclosure
- Full contact shaft seals inside both brackets for increased protection against contaminants
- Split conduit box is 90 degree rotatable
- Internal tropicproof
- 3 year warranty

NEMA 2-Speed Variable Torque One Winding Variable Torque - 4/8 Pole

W-Series NEMA Brake Motors 56-215T Frame Aluminum Construction

W-Series NEMA Brake Motor Range

The Brook Crompton brake motor range covers products with outputs from 0.50HP up to 10HP in frame sizes 56T to 215T.

They are suitable for use in a diverse range of applications including conveyors, cranes and hoists. Many applications often have adverse operating conditions including repeated starting and occasional overloading, the W range is well suited to these situations. A virtual 'go anywhere' motor, this cast iron range has a full 3-year guarantee.

Multi-Mount

By simply changing the position of the feet, the user is able to obtain right, left or top mounted terminal box positions.

The standard endshield can be removed and fitted with either a D flange or C face for alternative mounting options.

Features

- Class F insulation with class B temperature rise
- Removable/ repositionable feet for easy conversion to F1, F2, F3 (F0), or round body configuration
- IP55 degree of protection for washdown duty enclosure
- Full contact shaft seals inside both brackets for increased protection against contaminants
- Split conduit box is 90 degree rotatable
- Internal tropicproof
- 3 year warranty

Contact our office for price and availability.

W-Series Aluminum 63-180L Frame

Certifications

W-Series Aluminum Range

The Brook Crompton W-Series aluminum frame motor range covers products with outputs from 0.25HP up to 30HP in foot mount, C-face mount, and D-flange mount. They are suitable for use in a diverse range of applications. Many applications often have adverse operating conditions including repeated starting and occasional overloading, the W range is well suited to these situations. A virtual 'go anywhere' motor, this aluminium range has a 3 year warranty.

Multi-Mount

By simply changing the position of the feet, the user is able to obtain right, left or top mounted terminal box positions.

The standard endshield can be removed and fitted with either a D flange or C face for alternative mounting options.

Features

- NEMA MG1-Part 31 inverter duty 5:1 constant torque, 10:1 variable torque
- 1.25 service factor at 60Hz, 1.0 service factor at 50Hz
- Class F insulation with class B temperature rise
- Removable/ repositionable feet for easy conversion to F1, F2, F3 (F0), or round body configuration
- IP55 degree of protection for washdown duty enclosure
- Full contact shaft seals inside both brackets for increased protection against contaminants
- Dual rated 60/50Hz at same HP
- Cast aluminum conduit box with drilled and tapped entry is rotatable in 90 degree increments
- CSA approved for Class I; Division 2; Groups A, B, C & D, Zone 2; Groups IIA & IIB T3 with VFD
- Thermistors included in motors 160M and above. 1 per phase
- Internal tropicproof
- 3 year warranty

W-Series Cast Iron 80-315L Frame

58

Certifications

W-Series Cast Iron Range

The Brook Crompton W motor range covers products with outputs from 1HP up to 200HP in frame sizes 80 to 355L..

They are suitable for use in a diverse range of applications. Many applications often have adverse operating conditions including repeated starting and occasional overloading, the W range is well suited to these situations. A virtual 'go anywhere' motor, this cast iron range has a full 3-year guarantee.

Multi-Mount

By simply changing the position of the feet, the user is able to obtain right, left or top mounted terminal box positions.

The standard endshield can be removed and fitted with either a D flange or C face for alternative mounting options.

Features

- NEMA MG1-Part 31 inverter duty 5:1 constant torque, 10:1 variable torque
- 1.25 service factor at 60Hz, 1.0 service factor at 50Hz
- Class F insulation with class B temperature rise
- Removable/ repositionable feet for easy conversion to F1, F2, F3 (F0), or round body configuration
- IP55 degree of protection for washdown duty enclosure
- Full contact shaft seals inside both brackets for increased protection against contaminants
- Dual rated 60/50Hz at same HP
- Cast iron conduit box with drilled and tapped entry is rotatable in 90 degree increments
- CSA approved for Class I; Division 2; Groups A, B, C & D, Zone 2; Groups IIA & IIB T3 with VFD
- Thermistors included in motors 160M and above. 1 per phase
- Internal tropicproof
- 3 year warranty

W-Series Brake Motors IEC 71-132M

Aluminum Construction

66

W-Series IEC Brake Motor Range

The Brook Crompton brake motor range covers products with outputs from 0.50HP up to 10HP in frame sizes 56T to 215T.

They are suitable for use in a diverse range of applications including conveyors, cranes and hoists. Many applications often have adverse operating conditions including repeated starting and occasional overloading, the W range is well suited to these situations. A virtual 'go anywhere' motor, this cast iron range has a full 3-year guarantee.

Multi-Mount

By simply changing the position of the feet, the user is able to obtain right, left or top mounted terminal box positions.

The standard endshield can be removed and fitted with either a D flange or C face for alternative mounting options.

Features

- Class F insulation with class B temperature rise
- Removable/ repositionable feet for easy conversion to F1, F2, F3 (F0), or round body configuration
- IP55 degree of protection for washdown duty enclosure
- Full contact shaft seals inside both brackets for increased protection against contaminants
- Split conduit box is 90 degree rotatable
- Internal tropicproof
- 3 year warranty

Contact our office for price and availability.

Witton Kramer PG & PM Drum Brakes

67

PG Brakes

The Perigrip Brake Is A Well Proven Design With a Laminated Steel Magnet System. The Design Incorporates The Following Features:

- High quality cast iron construction
- Brakes fitted with manual release lever as standard
- Self-adjusting spring-loaded shoe
- A welded steel hinged cover
- protects the complete magnet
- assembly against dust and
- damage
- Class B insulation
- CSA approved

PM Brakes

The PM Brake's Long Established and Well Proven Cast Iron Design Has Stainless Steel Pivot Pins And Is Suitable For a Wide Range of Industrial Applications. The Design Incorporates The Following Features:

- Spring and all machined steel parts are plated
- Main components are of cast steel, and high quality cast iron
- Brake fitted with manual release lever as standard
- 8 hour rated in any period of 24 hours
- Friction device prevents brake shoes from dragging on the drum when the brake is off
- Weatherproof construction, with encapsulated magnet coil
- CSA approved

Protection Against Solid Objects			Protection Against Liquids		
#	Brief Description*	Definitions	#	Brief Description*	Definitions
0	Non-protected machines	No special protection	0	Non-protected machines	No special protection
1	Machine protected against solid objects greater than 50 mm**	Accidental or inadvertent contact with or approach to live and moving parts inside the enclosure by a large surface of the human body, such as a hand (but no protection against deliberate access). Ingress of solid objects exceeding 50 mm in diameter	1	Machine protected against dripping water	Dripping water (vertically falling drops) shall have no harmful effect.
2	Machine protected against solid objects greater than 12 mm**	Contact by fingers or similar objects not exceeding 80 mm in length with or approach to live or moving parts inside the enclosure. Ingress of solid objects exceeding 12 mm in diameter.	2	Machine protected against dripping water when tilted up to 15°	Vertically dripping water shall have no harmful effect when the machine is tilted in any angle up to 15° from its normal position
3	Machine protected against solid objects greater than 2.5 mm**	Contact with or approach to live or moving parts inside the enclosure by tools or wires exceeding 2.5 mm in diameter. Ingress of solid objects exceeding 1 mm in diameter.	3	Machine protected against spraying water	Vertically dripping water shall have no harmful effect when the machine is tilted in any angle up to 15° from its normal position
4	Machine protected against solid objects greater than 1 mm**	Contact with or approach to live or moving parts inside the enclosure by wires or strips of thickness greater than 1 mm in diameter.	4	Machine protected against splashing water	Water falling as a spray at any angle up to 60° from the vertical shall have no harmful effect
5	Dust-protected machine†	Contact with or approach to live or moving parts inside the enclosure. Ingress of dust is not totally prevented but dust does not enter in sufficient quantity to interfere with satisfactory operation of the machine.	5	Machine protected against water jets	Water projected by a nozzle against the machine from any direction shall have no harmful effect.
6	Dust-tight machine†	Contact with or approach to live or moving parts inside the enclosure. No ingress of dust	6	Machine protected against heavy seas	Water from heavy seas or water projected in powerful jets shall not enter the machine in harmful quantities.

* The brief description given in column 2 on this table should not be used to specify the form of protection.

** Machines assigned a first characteristic number 1,2,3 or 4 will exclude both regularly or irregularly shaped solid objects proved that three normally per pendicular dimensions of the object exceed the appropriate figure in column "Definition".

† The degree of protection against dust defined by this standard is a general one. When the nature (dimensions of particles, their nature, for instance fibrous particles) is specified, test conditions should be determined by an agreement between manufacturer and user.
